## Clear shipment digitally Through the Single Window Initiative (SWI)

### 1 Elimination of filing errors and improved data transparency

Our AI-driven platform minimizes errors by accurately identifying and extracting the necessary information from your shipping documents. Stay informed with real-time updates. We ensure all stakeholders are promptly informed of any changes.

### 2 Interoperable with Partner Government Agencies (PGAs)

Apart from CBSA, we're integrated with 9 PGAs (e.g. Canadian Food Inspection Agency) and 38 government programs to verify import requirements.

### 3 Affordable plans with a free 30-day trial and no obligations

Start your complimentary 30-day IID trial today. No credit card or commitment required.

### 4 User-friendly platform

Our easy-to-use platform automates data entry, streamlining filing processes with the latest compliance logic seamlessly integrated.

## Ensuring compliance With IID

IID is a part of CBSA's "Single Window Initiative". It is intended to simplify the import process and streamline the decisions made by the CBSA and PGAs who regulate imports into Canada. CBSA will share the data they receive with the applicable PGAs and their government programs. IID serves as both post- and pre-arrival release option and can be sent to CBSA for processing up to 90 days prior to the arrival of the goods.

## Simplify the way you file

### Select a solution that works for you

Streamline the process of submitting import trade declarations by utilizing our web portal. Alternatively, seamlessly integrate our platform with your in-house systems, or opt for our dedicated filing service for outsourced efficiency.

#### Web portal (direct filing)

#### For importers and customs brokers

- Easy-to-use platform with automated data entry, real-time tracking and advanced reporting.
- CBSA will identify the regulating PGA for the commodity on the IID, validate the IID data fields against the mandatory, conditional and optional data of the regulating PGA and share the information for the PGA's release decision.
- Once a release decision is made, CBSA will conduct a risk assessment before releasing the shipment.
- The release decision is then shared with you.

#### Integration with in-house systems

#### For importers and customs brokers

- Seamless integration via APIs for fast data transfer to CBSA and PGAs.

#### Broker Assist Service (outsourced filing)

#### For customs brokers

- 24/7 IID filing service to streamline customs reporting process and enhance operational efficiency.
- Reduce operational costs by up to 50% without requiring a dedicated in-house compliance team.
- Enjoy peace of mind as our team of trade compliance specialists handles all your filing needs.
